Choose a unique vision

Unlike some traditional colleges that encourage students to leave their lives behind for four years, Trinity Life Bible College equips Christians for ministry within the context of their everyday lives.

We also believe that students are best trained by instructors currently active in ministry, rather than by theorists or academicians. That is why all TLBC professors participate in a vital ministry in their field, beyond the classroom walls.

Much like a medical school that partners with a local teaching hospital, TLBC intentionally works hand-in-hand with local churches to train workers.
